- 3/21—End of Quarter 3
- 3/26—Report Cards go home
- 4/4—Beginning of Spring Vacation

Iowa Tests

- This is our last week of Iowa testing. The kids are doing a great job! 😊

ELA

- We are finishing up Little House this week! You'll see some comprehension questions come home that we've been working on here at school.
- We are going to be starting a new program to enhance our vocabularies and will work toward becoming word wizards. a Look for additional information to come home about this later this week.
- We'll be wrapping up editing our Young Author's stories at the beginning of the week. Then we'll move on to publishing (printing and illustrating)
- We will have spelling this week!

Math

- We are going to do some extra work this week on fractions. After doing some work with equivalent fractions at the end of last week it was clear that we need a little extra work on this! So we're going to take our time and make sure we get down these concepts!
- Remember that if you'd like your child to do extra practice of math facts at home, I'm happy to send you the link for that. Alternatively, you can always use flashcards or I can send home some practice worksheets to do.

Science

- We are continuing to study the weather. We'll be recording average precipitation, temperatures, and wind direction to make predictions about the weather.
- We will also be studying our weather words.

Bible

- We're starting a new Bible unit this week about the tabernacle and Israel worship. Lessons this week are:
 - The Tabernacle: Tent of Meeting
 - The Furnishings of the Tabernacle
 - The Ark of the Covenant
 - God's Glory Fills the Tabernacle
 - Israelite Worship

Etc...

- Our class is making a "Summer BBQ Basket" as a donation for the school auction. Click [here](#) to see what we still need.
- I'm looking for some recycled materials to use in our classroom to do [this](#). So if you have any plastic clamshell containers or tp tubes around the house please send them in!
